**Traffic Information - VHF Ch 68**

To obtain further information on:

- The current journey through the region;
- Berth information;
- Infrastructural information, such as works in progress on the fairway, constructions etc.;
- Reports on ships particulars and intentions during the journey, i.e. entering oil harbours or passing reporting points;
- Completing formalities after traffic incidents.

**Port Information - VHF Ch 14**

Maritime VHF Ch for vessels moored in port and for administration tasks imposed by the harbourmaster and the Regional Port Legislation North Sea Canal Area. On this channel the port user can make the reports mentioned in the Regional Port Legislation such as:

- Commencing and terminating activities for which permission was necessary;
- Commencing and terminating bunkering, board to board discharging, collecting waste, cleaning etc.;
- Questions concerning the provisions of port services;
- Request for exemptions, reporting breakdowns on board;
- Completing formalities concerning (surface) pollutions and incidents.
